

30mm Weightless Bookshelves

^{IT} Il coraggio di innovare ha portato a sospendere la libreria 30mm al soffitto, creando scenografiche composizioni che scendono dall'alto e che aiutano ad organizzare e dividere lo spazio in modo originale. Le colonne, di lunghezze diverse, scendono dal soffitto dando vita a un dinamico gioco di sospensione. Nella soluzione a giorno, la luce filtra liberamente, rendendo gli ambienti leggeri; le librerie con schienali danno vita a vere e proprie pareti divisorie. Un sistema di installazione sviluppato e testato in collaborazione con Fischer per massima tenuta e sicurezza.

^{ES} La valentía de innovar ha llevado a colgar la librería 30mm del techo, creando escenográficas composiciones que descienden de lo alto y que ayudan a organizar y dividir el espacio de manera original. Las columnas, de longitudes diferentes, descienden del techo dando vida a un dinámico juego de suspensión. En la solución abierta, la luz pasa libremente, volviendo los ambientes ligeros; las librerías con traseras dan vida a auténticas paredes divisorias. Un sistema de instalación desarrollado y testado en colaboración con Fischer consigue la máxima capacidad de carga y seguridad.

^{DE} Der Mut zu Innovation hat uns dazu gebracht, das Bücherregal 30 mm unter der Decke schweben zu lassen, wodurch eindrucksvolle Kompositionen entstehen, die von oben herabsteigen und es möglich machen, den Raum auf einzigartige Weise zu organisieren und aufzuteilen. Die Hochschränke in verschiedenen Längen hängen von der Decke und erwecken ein dynamisches Spiel mit der Schwebel zum Leben. Bei der offenen Lösung scheint das Licht frei durch die Elemente und lässt den Raum leicht wirken; die Bücherregale mit Rückwand hingegen lassen richtige Trennwände entstehen. Ein in Zusammenarbeit mit Fischer entwickeltes und getestetes Installationssystem garantiert Halt und Sicherheit auf höchstem Niveau.

^{EN} The courage to innovate has led to suspension of these 30mm bookshelves from the ceiling, creating spectacular hanging compositions that help to organise and divide space in an original way. Columns in different lengths hang in dynamic suspension from the ceiling. In the open solution, light can filter through freely for airy rooms, while the bookshelves with back panels can be used as a real room divider. The installation system has been developed and tested in collaboration with Fischer for maximum resistance and safety.

^{FR} Le courage de l'innovation a permis de suspendre la bibliothèque 30mm et de créer des compositions scénographiques descendant du plafond et offrant des solutions originales d'organisation et de séparation des espaces. Les colonnes pendantes, de longueurs différentes, donnent vie à un jeu dynamique de suspensions. Dans la solution ouverte, la lumière filtre librement et allège les espaces; les bibliothèques avec panneaux arrière font office de véritables cloisons. Un système d'installation développé et testé avec la collaboration de Fischer garantit une tenue et une sécurité maximales.
