

Sila

Sila is a chair project from which a lot of different versions take form, starting from simple shapes and natural materials. The body in multi-layer wood, available also padded and covered, is supported by a slim metal base, stackable or trestle.

Sila è un progetto di seduta che dà vita a tante varianti diverse, partendo da semplici forme e materiali naturali. La scocca in legno multistrato, disponibile anche con imbottitura e rivestimento, è sostenuta da una snella base metallica, impilabile oppure a trespolo.
